RE: Reject the Senate Confirmation of UC Regent Nominee Charlene Zettel

Dear Senator Steinberg:

I am writing you to ask that you vote “NO” on the confirmation of Charlene Zettel to the UC Board of Regents.

Charlene Zettel has a long history of fighting against the working families of California. During her tenure as a member of the California legislature, she never once voted to support the issues raised by working families. She does not represent the hopes and dreams of all Californians and is not qualified to lead our great University system. Her confirmation would be a stab in the back of all working families who hope to share in the dreams and aspirations of all Californians. To confirm her to this important leadership position would be a message to all Californians that working families have no place in the affairs of our great universities. We oppose her confirmation.

Please vote “NO” when her confirmation comes before the Senate Rules Committee.

Sincerely,

Bill Camp, Executive Secretary
Sacramento Central Labor Council, AFL-CIO
